Statement of reasons

Controlled parking zone 'CA-F' (Camden Town Area): experimental extension of evening and weekend parking controls

The Camden (Parking Places) (CA-F, Camden Town Area) (No. 1) Experimental Traffic Order 2024

The Camden (Waiting Restrictions) (CA-F, Camden Town Area) (No. 1) Experimental Traffic Order 2024

The Council of the London Borough of Camden propose to introduce Experimental Traffic Orders (ETO) for the trial introduction of extended evening and weekend parking controls in the Camden Town Area, within Controlled Parking Zone (CPZ) 'CA-F', as follows:-

- To increase the current weekday parking controls from 8:30 - 18:30 to 8.30 - 23.00 as a trial, in paid for parking bays, permit holder bays (including residents permit bays), shared use bays, and single yellow lines.
- The introduction of 24-hour Saturday and Sunday controls in resident bays only, and to extend the hours of Saturday and Sunday controls to 09.30 – 23.00 in permit holder bays, shared use bays, paid for parking bays, and single yellow lines.

These changes are intended to help protect the existing parking provision for permit holders and to discourage inessential car journeys to the area by providing less parking opportunities for non-permit holders. It is anticipated that the proposal will contribute to delivering a number of Camden Council objectives including:

- The Camden Transport Strategy (2019 – 2041) objective of reducing and mitigating the impacts of transport-based emissions;
- The Camden Clean Air Strategy 2019-2034 which commits the Council to achieving the revised World Health Organization (WHO) air quality guidelines for NO₂, PM₁₀ and PM_{2.5} boroughwide no later than 2034.
- Camden Climate Action Plan, 2020 – 2025 vision of achieving a net zero Camden by 2030.

The ETO will be in place for 18 months. Monitoring data will be collected during this time to understand the impacts of the scheme on streets within the scheme area. The decision regarding whether or not to make the scheme permanent at the end of the trial will be based on monitoring data, feedback received during the trial period and Council policy and strategies.
